

The concept of a Theme Day involves

- A cross curricular approach
- Delivered via a blended learning pedagogy
- Integrating a wide range of technologies.

Theme Days make makes provision for

- A range of additional opportunities
- A group of learners to developing and managing resources
- Whole Grade activities for a day
- A wide range of technologies and activities

Theme Days provide the framework to cover virtually any topic from

- A Trip to Mars,
- Fracking,
- Green Technologies,
- Ancient pyramids,
- A trip from the edge of space
- The Middle East Crisis, etc.
- The choice is yours

*Your learners will not disappoint you
If they are given the freedom and responsibility to fly.*
